

## How to fix OPPO and VIVO push notification not received issue?

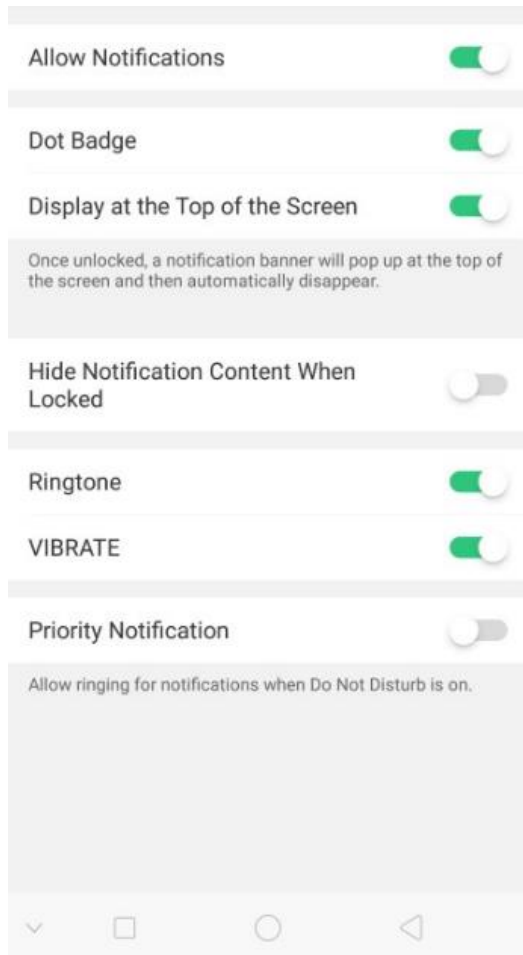

### 1. Go to Phone Settings and tap on 'Battery'

## 2. Disable 'Background Freeze, Optimization & Doze'

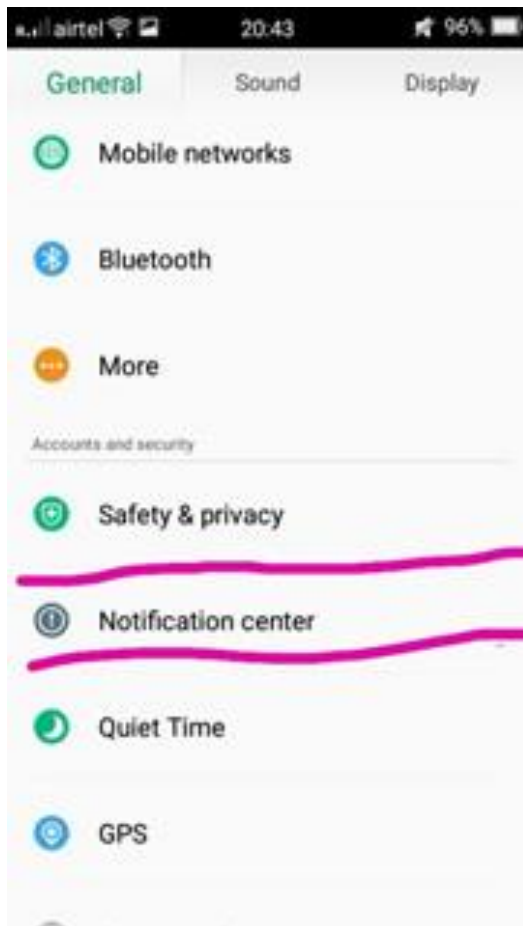

3. Phone settings>> Application (All Apps) >> goReward app >> Enable all the options (Allow Notification, Dot Badge, Display at the Top of the Screen, Priority Notification)

OR

1. Phone settings>> Notification Center>>goReward>>Enable all the options (Allow Notification, Display on status bar and Display on Lock screen)

## < Manage Notifications

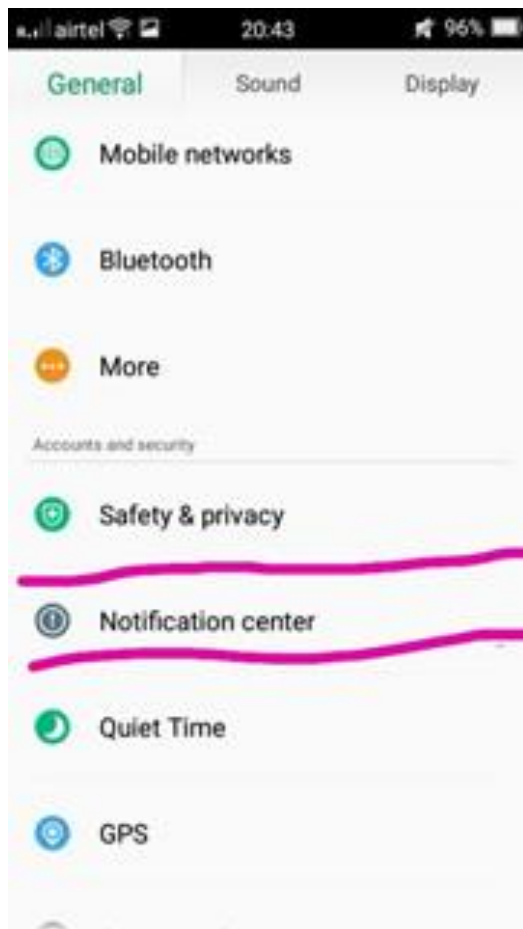

-  **Google Play Store** > >  
Lockscreen, Badge, Banner, Notification Bar
-  **goREWARD** > A  
Lockscreen, Badge, Banner, Notification Bar
-  **Grab** > C  
Lockscreen, Badge, Banner, Notification Bar
-  **Instagram** > F  
Lockscreen, Badge, Banner, Notification Bar
-  **iReader** > I  
Lockscreen, Badge, Banner, Notification Bar
-  **Keep** > M  
Lockscreen, Badge, Banner, Notification Bar
-  **Maps** > P  
Lockscreen, Badge, Banner, Notification Bar
-  **Messages** > S  
Lockscreen, Badge, Banner, Notification Bar
-  **MP3 Quran** > V  
Lockscreen, Badge, Banner, Notification Bar
-  **Music** > Y  
Badge, Banner, Notification Bar
-  **Music Party** >

Settings

**Show on lockscreen**  
Once disabled, app notifications will not be displayed on the lockscreen

**Turn on the screen for lockscreen notifications**  
If you disable this function, all lockscreen notifications except incoming calls and SMS messages will not light up the screen up.

2. Again go to the Notification Center>>Settings >>Enable all the options.

## < Dailyhunt

### Allow notifications

Once disabled, notifications from this app will not be displayed on the notification bar, status bar or lockscreen.

### Display on status bar

### Display on lockscreen

### Display efficiency
